SUBJECT INDEX TO VOLUME XXXIV – 1983

ACTIVE CONTROL
See Flutter

ADDED FLUID MASS
See Parachute Dynamics

AEROELASTICITY
See Flutter

AIR INTAKE
The swirl in an S-Duct of Typical Air Intake Proportions, R W Guo and J Seddon, p 99 (May).

Swirl Characteristics of an S-Shaped Air Intake with both Horizontal and Vertical Offsets, R W Guo and J Seddon, p 130 (May).

ANNULAR JETS
Annular Jets of Different Diameter Ratios, N W M Ko and F C Chu, p 163 (August).

AXISYMMETRIC BODY
See Slanted Base

BOUNDARY LAYER
See Transition and Turbulent Boundary Layer

CYLINDER
An Investigation of the Effects of Incidence on the Flow Around a Square Section Cylinder, E D Obasaju, p 243 (November).

DRAG
See Slanted Base

FINITE ELEMENTS
Approximate Displacements of Exact Membrane Actions in a Shell Triangular Element, L S D Morley, p 282 (November).

FLAPS
See Multi-Element Aerofoils

FLUTTER
On the Energy Characteristics of the Aerodynamic Matrix and the Relationship to Possible Flutter, J G Jones, p 212 (August).

The Synthesis of an Active Flutter Suppression Law Based on an Energy Criterion, A F Klein, p 260 (November).

FRACTURE
A Model for Studying the Stress Field around Simple Fractures in Human Patella, J C Misra and V V T N Murti, p 303 (November).

HYPERSONIC FLOW
See Oscillating Aerofoils

JET IMPINGEMENT
See Wedges

MULTI-ELEMENT AEROFOILS
On the Application of Linearized Theory to Multi-Element Aerofoils Part 1: Tandem Flat Plate Aerofoils, G D Watt and G V Parkinson, p 46 (February).

OSCILLATING AEROFOILS
Addendum: Unsteady Newton-Busemann Flow Theory Part III Frequency Dependence and Indicial Response, W W Hui, p 75 (February).

PARACHUTE DYNAMICS
Added Fluid Mass and the Equations of Motion of a Parachute, J A Eaton, p 226 (August).

POTENTIAL FLOW
See Singularity Distributions

S-SHAPED DUCT
See Air Intake

SHAPE FACTOR
See Turbulent Boundary Layer

SHELL
See Finite Elements

SINGULARITY DISTRIBUTIONS
Calculations of Potential Flow about Arbitrary Three-Dimensional Wings using Internal Singularity Distributions, N Singh, G Bandyopadhyay and B C Basu, p 197 (August).

SLANTED BASE
An Experimental Investigation of the Wake of an Axisymmetric Body with a Slanted Base, X J Xia and P W Bearman, p 24 (February).

STRESS FIELD
See Fracture

SWEPT WING
See Transition

SWIRL
See Air Intake

TRANSITION
The Development of Intermittent Turbulence On a Swept Attachment Line Including the Effects of Compressibility, D I A Poll, p 1 (February).

TURBULENT BOUNDARY LAYER
The Shape Factor Relationship for Turbulent Boundary Layers, M M M El Telbany, J Niknejad and A J Reynolds, p 147 (May).

TURBULENT MIXING
Effect of Initial Conditions on Constant Pressure Mixing Between Two Turbulent Streams, S Kangovi, p 61 (February).

UNEXPANDED JETS
See Wedges

WAKE
See Slanted Base and Turbulent Mixing

WEDGES
Loads and Pressures Due to Underexpanded Jets Impinging on Wedges, B L Hunt, p76 (May).

WINGS
See Singularity Distributions and Multi Element Aerofoils

AUTHOR INDEX

(Volume XXXIV)

BEARMAN, P W *see* XIA, X J

BANDYOPADHYAY, G *see* SINGH, N

BASU, B C *see* SINGH, N

CHU, F C *see* KO, N W M

EATON, J A
Added Fluid Mass and the Equations of Motion of a Parachute, p 226 (August).

EL TELBANY, M M M
The Shape Factor Relationship for Turbulent Boundary Layers, p 147 (May).

GUO, R W
The Swirl in an S-Duct of Typical Air Intake Proportions, p 99 (May).

Swirl Characteristics of an S-Shaped Air Intake with both Horizontal and Vertical Offsets, p 130 (May).

HUI, W H
Addendum: Unsteady Newton-Busemann Flow Theory Part III Frequency Dependence and Indicial Response, p 75 (February).

HUNT, B L
Loads and Pressures Due to Underexpanded Jets Impinging on Wedges, p 76 (May).

JONES, J G
On the Energy Characteristics of the Aerodynamic Matrix and the Relationship to Possible Flutter, p 212 (August).

KANGOVI, S
Effect of Initial Conditions on Constant Pressure Mixing Between Two Turbulent Streams, p 61 (February).

KLEIN, A F
The Synthesis of an Active Flutter Suppression Law Based on an Energy Criterion, p 260 (November).

KO, N W M
Annular Jets of Different Diameter Ratios p 163 (August).

MISRA, J C
A Model for Studying the Stress Field around Simple Fractures in Human Patella, p 303 (November).

MORLEY, L S D
Approximate Displacements of Exact Membrane Actions in a Shell Triangular Element, p 282 (November).

MURTI, V V T N *see* MISRA, J C

NIKNEJAD, J *see* EL TELBANY, M M M

OBASAJU, E D
An Investigation of the Effects of Incidence on the Flow Around a Square Section Cylinder, p 243 (November).

PARKINSON, G V *see* WATT, G D

POLL, D I A
The Development of Intermittent Turbulence on a Swept Attachment Line Including the Effects of Compressibility, p 1 (February).

REYNOLDS, A J *see* EL TELBANY, M M M

SEDDON, J *see* GUO, R W

SINGH, N
Calculation of Potential Flow about Arbitrary Three-Dimensional Wings using Internal Singularity Distributions, p 167 (August).

WATT, G D
On the Application of Linearized Theory to Multi-Element Aerofoils Part I: Tandem Flat Plate Aerofoils, p 46 (February).

XIA, X J
An Experimental Investigation of the Wake of an Axisymmetric Body with a Slanted Base, p 24 (February).
